Full Stack Developer with a background as an Architect, extensive experience leading project areas in Architecture and Engineering companies for over 5 years, collaborating within teams and managing professionals. Proficient in agile methodologies, especially Scrum, workflow management using Jira, Trello, or GitHub, report generation in PowerBI, and participation in design projects utilizing tools like Photoshop, Illustrator, and Figma. Currently, my focus is on combining my past experience with my Developer training to maximize my skills in the IT world.

WORK EXPERIENCE

Full Stack Web Developer - SoyHenry

Jun. 23 - Jul. 23

<https://github.com/SantiMarich/PetRescueConnect>

PetRescueConnect – Pet Adoption App Development

The project focused on simplifying the adoption process by developing a platform that enables multiple foundations to showcase pets and provides users with the opportunity to adopt through donations.

The development included implementing third-party authentication with Auth0 for user registration and classification. Email notifications were incorporated upon creating a new user, along with search functionalities, combined filters, and sorting options for pets available for adoption and associated foundations.

To streamline donations, a MercadoPago payment gateway was integrated. LocalStorage and logical deletion were employed for efficient data management, alongside storing pet images and foundation logos using Cloudinary.

Auth0 - Payment Gateway - Cloudinary - LocalStorage - Logical Deletion - Notifications - Filters - Sort - Deploy

NODE.JS • EXPRESS.JS • JAVASCRIPT • REACT • REDUX • CSS • HTML • POSTGRESQL • BOOTSTRAP.

Full Stack Web Developer - SoyHenry

May. 23 - Jun. 23

<https://github.com/SantiMarich/Dogs>

WoofWoof - Dog Breeds App Development

The project consists of an application for classifying and showcasing different dog breeds.

The development of this platform involves the consumption of an API that provides comprehensive information about various breeds, enabling dynamic searches, combined filters, and sorting options.

The project was deployed through Vercel, ensuring its accessibility and availability online for users.

API - Filters - Sort - Deploy

NODE.JS • EXPRESS.JS • JAVASCRIPT • REACT • REDUX • CSS • HTML • SQL • POSTGRESQL.

OTHER WORK EXPERIENCE

Architect - MAAK Studio

Jun. 17 - Jul. 23

Experience as an Architect, working as a Project Manager and Project Area Leader for 5 years in Architecture and Engineering companies. I also have experience working as an independent and freelance professional. Proficiency in agile methodologies, workflow management, design software, image editing, 3D modeling, and project rendering.

AUTOCAD • REVIT ARCHITECTURE • SKETCHUP 3D • LUMION • POWER BI • PHOTOSHOP • ILLUSTRATOR.

EDUCATION

Full Stack Web Developer - SoyHenry

Feb. 23 - Jul. 23

Henry Bootcamp. 800 hours of Theoretical – Practical training

An intensive program that simulates a real work environment for developer training.

Arquitectura - Universidad Nacional de Córdoba

Feb. 09 - Jul. 17

Bachelor's Degree in Architecture

University degree in Architecture, Landscape Architecture, and Urban Planning.

TECH SKILLS

- **Frontend:** JavaScript (1 Year) - React (1 Year) - Redux (1 Year) - CSS (1 Year) - HTML (1 Year)
- **Backend:** Node.js (1 Year) - Express.js (1 Year) - Python (1 Year)
- **Database:** SQL (1 Year) - PostgreSQL (1 Year) - Sequelize (1 Year)
- **Design:** Figma (1 Year) - Adobe Photoshop (5 Years) - Adobe Illustrator (3 Years) - Adobe InDesign (2 Years)
- **Operating Systems:** Windows - Android

EXTRA SKILLS

- **Architecture:** AutoCAD - Revit Architecture
- **3D Modeling:** SketchUp 3D - Vray - Lumion
- **Data:** Power BI - Microsoft Office
- **Agile Methodologies:** Scrum (Trello - Jira)

SOFT SKILLS

Teamwork • Leadership • Creativity • Proactivity • Autonomy • Multitasking • Analytical • Scrum

LANGUAGES

- **Spanish** (C2 - Native)
- **English** (B2 - Upper Intermediate)
- **Portuguese** (A1 - Basic)
- **French** (A1 - Basic)
