

# SANTIAGO MARICH

FULL STACK DEVELOPER

**Mail:** [santiagomarich@gmail.com](mailto:santiagomarich@gmail.com)  
**Phone:** +54 (351) 3838890  
**Location:** Córdoba Capital  
**Country:** Argentina

**Portfolio:** <https://santimarich.vercel.app/>  
**LinkedIn:** <https://www.linkedin.com/in/santiago-marich/>  
**GitHub:** <https://www.github.com/SantiMarich>

Full Stack Developer with experience in building web applications using Node.js, React, Express, and PostgreSQL. I have an academic background in Architecture, providing a strong foundation in project management, problem-solving, and structured thinking. I apply agile methodologies (Scrum) and best development practices to deliver scalable, clean, and efficient solutions.

## EXPERIENCE

**XCons - Front End Developer - Construction E-commerce** Mar. 24 - Aug. 25

Implemented reusable components and new UI sections in HTML, CSS, PHTML, and JavaScript, enhancing user experience. Collaborated with designers and developers to optimize login pop-ups, product cards, and budget sections. Provided ongoing support and responsive adjustments for multiple stores in production.  
Stack: Magento • JavaScript • PHP • CSS • HTML • PHTML • Knockout.js • Bootstrap • Figma • WordPress

**Eco House Real State - Freelance - Full Stack Web Developer** Jan. 24 - Mar. 24

Built a complete platform with Auth0 authentication, user management, and automated email notifications. Integrated Cloudinary image storage and advanced filtering and search logic. Deployed and maintained the application in production, reducing load times by 30%.  
Stack: Node.js • Express.js • React • Redux • PostgreSQL • Tailwind • Auth0 • Cloudinary

**SoyHenry - Full Stack Web Developer – Pet Rescue App** Jun. 23 - Jul. 23

Implemented payment gateway (MercadoPago) and third-party authentication (Auth0). Designed adoption workflows with combined filters and dynamic searches, improving navigation flow. Integrated Cloudinary for image storage and soft delete functionality for efficient data management.  
Stack: Node.js • Express.js • React • Redux • PostgreSQL • Bootstrap

## EDUCATION

**Full Stack Web Developer – SoyHenry** Feb. 23 - Jul. 23  
800-hour bootcamp. Intensive program simulating a real-world developer environment.

**Architecture - Universidad Nacional de Córdoba** Feb. 09 – Dic. 16  
Bachelor's Degree in Architecture, Landscape, and Urbanism.
